

# PROVIDE SECURE TEMPORARY ACCESS WITH SENTRICONNECT

## Quick, Easy and Secure!

As a listing agent, you can use the SentiKey™ Real Estate mobile app to grant secure, temporary lockbox access to contractors, out-of-area agents, and others. The person granted temporary access will receive an invitation to install the SentiConnect® mobile app on their device to access the property, and you'll know who has accessed the property, when it was accessed, and for how long.

### Grant Quick Access to Lockboxes

In the SentiKey Real Estate mobile app, simply select the lockbox, and enter the day and times you want to allow access to the property, along with the email address of the SentiConnect user who will have the access.

### Secure and Trackable Access

You'll receive instant notifications when the SentiConnect temporary access is used to open the lockbox. You'll also have the ability to manage and revoke access, giving you complete control of your listings.
