

## The Hiring Process

Create your profile and upload an updated resume to apply for the desired position with our team.

Your qualifications will be reviewed by a recruiter. Should your credentials meet the job description's requirements, we will contact you to coordinate the next steps.

## Preparing for the Interview

Being prepared shows you are truly interested in the company and have given the position much thought. Here are a few suggestions:

- Research the position by reviewing the job description. This will allow you to be better prepared for the interviewer's position-specific questions.
- Read SentryLock's website to get a feel for what we are all about. This will reveal your interest and knowledge about the company.
- Write down a few questions about SentryLock you would like to know.
- Make sure you have directions to the interview and a gauge of how long it will take to arrive, so you are not late. In gauging, account for traffic, accidents, or getting lost.
- Check out the resources available on our YouTube and/or Glassdoor page.

### Stephen Vaughn, Customer Relationship Manager

Joined our team in June 2018

"Welcome to the wonderful world of SentryLock. Dreams really do come true here. I have been here close to a year and my experience has been nothing but exceptional. The advice I would give to my future coworkers is to be ready to learn and work with the great potential you have, and SentryLock will UNLOCK the rest!"

### Chelle Magin, Assistant Manager Support

Joined our team in November 2018

"The SentryLock interview process is well-organized. The next step is clearly defined at the end of each call or meeting, thus removing a lot of the post-interview guesswork that often occurs. Check out the SentryLock YouTube channel which is filled with videos you can watch to familiarize yourself with our products, customers, and company culture."
