SentriLock Chosen by the MLS of Greater Cincinnati, Inc., to Provide Electronic Lockbox Services to Its Members

Company Expected to Provide Higher Level of Service and Ease of Use to Realtors in Its Hometown

West Chester, Ohio. (March 11, 2021) – SentriLock, LLC, a leading real estate technology provider and wholly owned subsidiary of the National Association of Realtors®, has been selected as the vendor of choice to provide lockbox services to the MLS of Greater Cincinnati, Inc., the local MLS service covering SentriLock’s home office region.

“We are truly pleased to welcome the MLS of Greater Cincinnati to the SentriLock family,” said Scott Fisher, Founder and CEO of SentriLock. “It gives us pride to serve the needs of Realtors® and their clients who live, work, and raise families right here in our hometown of Cincinnati. It’s an opportunity and responsibility we take very seriously.” In September of this year, SentriLock’s lockbox services will be implemented in the MLS of Greater Cincinnati, replacing services previously available through another provider.

“As a member-driven organization, our goal is to ensure that our members have access to top-of-the-line technologies,” said Stephanie Sudbrack-Busam, President of the Cincinnati Area Board of REALTORS®. “SentriLock gives our members a competitive market advantage and an important tool to best serve their clients. They are known for their award-winning customer care and their knowledgeable service team provides world-class support seven days a week right here in the Cincinnati area. We are proud to be partnering with another local Cincinnati business.”

The SentriLock platform allows Realtors® to use a mobile device and app to open the lockbox, release the shackle, receive instant showing notifications, review access logs, and much more. The feature-rich mobile app combined with SentriLock’s new SentriGuard™ lockbox offers users the industry’s strongest, most reliable and smartest real estate solution for secure property access.

SentriLock is used by over 380 MLSs and Associations, and over 400,000 Realtors®. During almost 20 years providing technology solutions to the real estate industry, SentriLock has:

- Enabled over 10 million home sales.
- Placed more than 1.3 million lockboxes in the field.
- Securely enabled over 12 million home accesses.
