

Lockbox Location

Listing Agents can now add a photo and/or written description of the lockbox location for Showing Agents

Lockbox Location Feature

Placing a lockbox out of street visibility or alongside several other lockboxes at a multi-unit property? **Lockbox Location** allows a Listing Agent to add a photo and/or written description of the lockbox's location for Showing Agents coming to the property. Listing agents can add this information in the SentiKey Real Estate app or lockbox website. Showing Agents can access this information prior to the showing and while onsite.

To add a lockbox location picture/description as the Listing Agent:

Open SKRE App > My Listings > Select Listing (or add new listing) > Showing Instructions > Lockbox Details

From the **lockbox website**, Lockbox Location photos and descriptions can be uploaded by editing an existing listing or when adding a new listing.

To view a lockbox location picture/description as the Showing Agent:

Open SKRE App > My Schedule > View Calendar > Appointment Details

**Please note that the Lockbox Location feature is available only to SentiLock lockbox users. Customers with Showing Service ONLY will not be able to access this feature – they will only be able to view what is added by lockbox customers in their dashboard.*
